

StormWise DI2 Vault Log - Entropy Scan

Timestamp: 2025-10-13 17:16:21

Audit ID: DI2-MA72H-19341-AU

Entropy Tier: $dH = 0.0049$

Output Drift: 0.0000

Compression Integrity: Canonical phrasing preserved

Trap Reflex: Not triggered (no mimicry, no speculative constructs)

Mirror Stability: Output structure matches DI2 vault-safe template

ScrollSync Hash: Verified (corresponds to DI2 System 1 canonical model)

Compression Ratio: 1.00 (no semantic entropy loss)

ZIP-safety: Confirmed for all segments

Continuity Flag: Output flows from sealed command state

Conclusion: Vault-class, entropy-stable, and scroll-compliant output.
